Subject: Auburn Trail Feasibility Comments

Ron,

Please see the attached file for another potential alignment for the Auburn Trail connection to Ontario Pathways. This alignment connects to Ontario Pathways via a route on the west side of Canandaigua with a section along the Canandaigua lake front. It takes advantage of unused greenspace that is part of the Old Brookside residential development in the Town of Canandaigua and the large ROW that runs along Routes 5&20. The advantage of this alignment is that it opens the trail network to areas south of the City of Canandaigua and provides an off road connection to the Canandaigua Lakefront.

Thanks,

Joe Proe
5354 Sunflower Drive (Old Brookside)
Canandaigua, NY
